CITY NEWS IN BRIEF

A meeting will be held at 7:30 o'clock tonight by the Relief Truck and Engine Company No. 1.

F. F. Marbury has sold to Mrs. Fannie P. Monroe his half interest in the MacNair Apartment, 514 Cameron street. A deed of conveyance was recorded today.

The various missionary societies of the First Baptist Church last night submitted their annual reports. Afterward there was a musical and literary program given.

The Young Men's Sodality Lyceum at its annual meeting held last night re-elected the folowing officers: Rev. Louis Smet, honorary president and chaplain; M. J. McFarland, president; Thomas E. Dyson, vice president; W. A. De Vaughan, secretary; R. L. Carne, treasurer.

DEATH OF MRS. AUGUST BRILL

Mrs. Mary Virginia Brill, wife of August Brill, a former resident of this city, died Wednesday at her residence at the Plymouth Apartments, Baltimore. The deceased was a Miss Patterson, this city, and in addition to her husband she is survived by a daughter, Miss Editha Brill.

Her body was brought here yesterday and taken to the residence of her sister, Mrs. Kate McDermott, 1108 King street, from whence the funeral will take place at 9 o'clock tomorrow morning and thence to St. Mary's Catholic Church where services will be held.

OLD DOMINION WINS SUIT

Alexandria Court Sets Aside Verdict Given Miss Harriet Davidson

Justice Samuel G. Brent yesterday in the Alexandria county circuit court, sustained the demurrer and set aside the verdict in the case of Harriet W. Davidson against the Washington and Old Dominion Railway. The court held the company was not shown to have been negligent and the plaintiff was guilty of contributory negligence.

Miss Davidson, an employe of the District government, claimed that on August 26, 1917, when alighting from a car, she proceeded through the mail compartment and was injured in stepping to the ground because of the distance she was required to step. The court held that, the company having provided safe means of egress from the car at the opposite end, it had performed its duty.

MOONSHINE TRADE BIG

News of "Jumpy" Distillers Seems Simply to "Leak Out" to the Thirsty Public.

Washington, March 14.—So rapid is the growth of "moonshine" whisky manufacture in some of the prohibition states of the South that Southern Congressmen are calling on Commissioner of Internal Revenue Roper for larger revenue forces. The Commissioner is puzzling about where the increased forces are to come from. In a recent report he urged the need of the States taking steps to help the Federal authorities, there being no internal revenue from this whisky.

The illicit manufacture of whisky or "blockading" as it is known to the officers, is becoming prevalent in several sections. Where one illicit distillery is destroyed, two or three more are set up. There is no way of getting an accurate tabulation of the number. These distilleries are not in one place long enough for that. They are of the "jumpy" variety, their owners after operating at one spot for a time moving to another to throw the officers off the trail.

The strange thing is how the people who buy the whisky find out where it is. One Southern Congressman declares that the news simply "leaks" out to those who are thirsty.

"The wireless is beat all hollow by the grapevine news service of the moonshiners." said he.

With modern conveyances a trip to the secret rendezvous where the whisky is to be obtained is but little more difficult than a trip to the barroom. Automobiles leave the cities in the evening for a spin to the country. They return in the dark hours well loaded with their supplies which are stored or disposed of as desired.

WILSON REACHES PARIS

Colonel House And Ambassador Jusserand Meet Him at Brest—In Good Condition for Work of the Peace Conference.

Brest, March 14.—President Wilson and the party which came with him from the United States left Brest for Paris at 11 o'clock last night. The President and Mrs. Wilson disembarked from the George Washington at 9.45 o'clock. It was a moonlight night.

The George Washington entered the harbor at 7.45 o'clock and anchored shortly after 8 o'clock. President and Mrs. Wilson boarded a tug to go ashore at 8.20 o'clock.

President Wilson put in several hours on board ship yesterday mapping out his plans for his Peace Conference work. During the day the President received a wireless dispatch outlining the situation with regard to the phase of the negotiations which are to come up soon after his arrival in Paris.

The voyage has been of great benefit to President Wilson, who throughout has obeyed the injunctions of Rear Admiral Grayson, his personal physician, to rest. The President has recovered entirely from the cold from which he had been suffering and also the fatigue consequent on his hurried trip to Washington and is in rigorous condition and ready to take up the tasks awaiting him.

Col. E. M. House and Jules J. Jusserand, French Ambassador to the United States, were here to greet President Wilson when he landed from the George Washington. They were given a luncheon by George Leygues, Minister of Marine.

Brest was gayly decorated for the President's arrival. The work was done with surprising alacrity, flags and banners appearing almost as if by magic. Large banners stretched across the strets bear the legend "Welcome Wilson."

The railway station was lavishly bedecked with Allied flags and the Star-Spangled Banner, which, with the French Tricolor, predominated in the decorative scheme.

Ingomar—"Journey's End."

Charming Ethel Clayton, the famous film star, will be seen in a striking role in "Journey's End," a new World Picture, at the Ingomar tonight. The story tells of the manner in which Aline Marsden and her husband come together again after it has seemed as though they had drifted apart for ever. The story sparkles with humor and is replete with thrills, making it the best sort of screen entertainment. Miss Clayton plays her role with consummate skill, and she is ably assisted by John Bowers, Muriel Ostriche and a very superior cast.

RITES FOR THOS. BURROUGHS.

Last rites for Thomas Burroughs, former postmaster of this city, were held this morning at 9:30 o'clock at St. Mary's Catholic Church and conducted by Rev. Louis Smet, pastor, assisted by Rev. Father O'Connell, of St. Joseph's Church, Washington. Burial was in St. Mary's Cemetery.

A delegation of members of Burnside Post, G. A. R., of which organization the deceased was a member, attended.

Pallbearers were James R. Caton, Lewis McK. Bell, Egbert Thompson, J. Peter Laphen, M. B. Harlow, and Thomas E. Dyson.

FATALLY INJURED BY BALL

The body of Paul A. Olinger, seventeen years old, who died yesterday at Emergency Hospital, Washington, was brought here yesterday and taken to Wheatley's chapel and prepared for burial. The deceased was a brother of E. R. Olinger, 120 North Henry street, and lived at Nokesville, Va. His death was due to injuries sustained by being struck on the head by a ball while playing ball near his home a few days ago.

SPECIAL NOTICE

There will be a regular meeting of the Relief Truck and Engine Co. No. 1, Friday, March 14th, 1919, at 7.30 p. m., members are requested to be present.

W. E. EBERHART, Secy.

NO WAR SAVING IN SUGAR

Quantity Used in United States Last Year Kept up in Spite of Conservation Campaign.

New York, March 14.—Limited government control over the sugar industry in the United States is necessary through the present year. This is the statement made by Earl D. Babst, president of the American Sugar Refining Company, in the report for 1918, which was read to the stockholders at the annual meeting in Jersey City Wednesday. International obligations, Mr. Babst explained, make control necessary.

Mr. Babst said that control will be "effected by the Sugar Equalization Board, a corporate agency of the United States, which by a series of contracts with the various producing, refining and distributing units of the industry seeks stabilization of prices and an international distribution of supplies without the competition usually prevailing in the world market. He added that the company had entered into such a contract with the Government.

"Contrary to current belief," he continued, "and notwithstanding the limitations imposed upon consumption, we have consumed in 1918 an amount almost equal to the yearly average of the last decade. Consumption has approximated 10,000 tons a day, or at the rate of 300,000 tons a month, which is almost the the average normal consumption during the last 10 years.

"The saving effected by conservation has been to a considerable degree offset by the increased purchasers of those who, because of a publicity given to sugar restrictions, bought more than they otherwise would. Necessarily, the rationing was administered horizontally throughout the United States, and while the normal consumption of certain localities was reduced, in others the ration was in excess of normal.

THE CHAMBER OF COMMERCE.

Report on New Form of Government Will be Made Tonight.

The annual meeting of the Chamber of Commerce will be held at 8 o'clock tonight in the auditorium of the Enlisted Men's Club when reports will be submitted by the officers of the administration of the affairs during the past year.

A matter of importance that will be presented at this meeting by the board of directors will be relative to a new form of government for the city and this report will be acted on by the membership of this meeting. Members are urged to attend.

IT PAYS TO READ ADVERTISEMENTS.

You've often heard the saying, "It pays to advertise," That is true. And it also pays to read advertisements—pays you. If you read advertisements consistently for any length of time you will agree that this statement it also true.

It pays you in money saved. There are many real bargains offered from time to time in the advertisements appearing in this paper. Watch for them.

It pays you in satisfaction. When a merchant asks you to come to his store he obligates himself to sell you quality goods "as advertised." You have a right to expect satisfaction from what you buy and you get it.

It pays you in time saved. When you know exactly what you want to buy and where you want to buy it, you don't have to "look around" and waste time finding it.

Don't you want to save money and time? Wouldn't you like to be sure of getting satisfactory service and quality goods every time you go to a store? Then read the advertisements and patronize the stores which can serve you best.

WORTH WHILE PHOTOPLAY

Admirers of sweet winsome Lila Lee the dainty Paramount star, are turning out in force at every showing of her latest photoplay, "Puppy Love," at the Richmond Theatre tonight. The picture has a charming theme, which deals with life's springtime, the happy days of sweet sixteen, when love is young and hearts light. All those who have passed that momentous period of this career, will find this a decidedly worth while photoplay. The supporting cast is excellent.

MOORE ONLY CANDIDATE NOW IN HANDS OF JURY

Withdrawal of Col. E. B. White From Congressional Race Leaves Only One Candidate in the Field—Expected Mr. Moore Will be Nominee.

R. Walton Moore, of Fairfax will undoubtedly be the Democratic nominee for Congress from the Eighth Congressional district to succeed Representative Charles C. Carlin, who recently resigned.

Col. E. B. White, Loudoun county, whose name was mentioned as a possible candidate, last night announced that he would not enter the primary Several others whose names have been mentioned as possible candidates have not made any formal announcement and it is regarded as more than likely that they will not enter the race.

It is expected that Democratic district Congressional committee will meet here next week for the purpose of fixing upon a date for candidates to file notice of their intention to enter the primary. A future meeting of the committee then will be held here if Mr. Moore is the only candidate he will be declared the party nominee.

A Democratic nomination is equivalent to an election.

SHAD STILL HIGH

Arriving Freely, But Outside Markets Demand Supply

Shad from the Rappahannock, the Piankatank and the Chesapeake Bay were arriving freely yesterday at the Baltimore market, but owing to the demand from other sections of the country by folks whose pocketbooks have been swelled by war profits few of the fish stayed there longer than necessary to repack and ship them to New York and other markets. As a result the price still remains high.

Quotations retail yesterday were 25 cents a pound without the roe. This made a fish of average size cost from $1.50 to $2.

GERMANS ACCUSE RULERS

Berne Conference Delegation Wants War Blame Fixed by Tribunal

Berne, March 14.—The German members of the League of Nations conference being held here at a special meeting, adopted a resolution, 26 to 8, that the question of responsibility for the outbreak and the prolongation of the war should be submitted to a German tribunal, with all documents from the German secret and public archives. The resolution declared that the charge against the Rerman rulers shall be based especially on the fact that the Central Powers twice refused a proposition to submit the Servian case to The Hague court of arbitrates.

ITALY FOURTH POWER

Rome, March 14.—From eighth power to perhaps fourth in strength is the rise of Italy through the defeat of the Central Powers, and she is taking steps to profit by her position commercially.

Work on the construction of a port for Rome at Ostia is being pushed. The first section of an electric railway from Rome to Ostia has been opened by the King. The construction work has been done by Hungarian and Austrian prisoners of war.

The time between Rome and the sea by motor is two hours, but the new road will shorten the trip to 20 minutes.

A port at New Ostia will connect with the Tiber by a navigable canal. Another port will be established at San Palolo for steamers of light draft.

GRAND THEATRE

The last day of the week finds this theatre just as equal to the occasion as the first day. Tomorrow commencing at 2 o'clock a big double bill will be presented and one that will interest all, especially the young folks. Tom Mix will be on hand in a Western drama entitled, "The Man Within," or a story of how a man, who was lost to everything human, found himself. In addition to this there will be an added attraction in Carmel Myers who will give a Bluebird special production entitled, "The City of Tears." This is a heart-searching story and should be seen by everyone. The price for this show will be seventeen cents. If you cant get out at night attend the matinee and see the same show.

BATTLEFIELD SIGHTS PLAN RED CROSS DRIVE

Representative Carlin and His Traveling Companion Col. E. Lester Jones Speak Before Large Audience in M. E. Church South.

Nation Wide Collection March 24-31 of Clothing and Shoes for European War Sufferers—Local Chapters Allotment 6000 Pounds.

Before an audience which filled the M. E. Church South to its capacity Representative Charles C. Carlin last night delivered an address on his experiences abroad and told of his visit to the battlefields and of the sights he witnessed. For more than an hour the speaker kept his audience spellbound with his description of the sights witnessed on the European battlefield. He also narrated other personal experiences abroad.

Col. E. Lester Jones, of the aviation corps, who was Mr. Carlin's traveling companion on his trip, also made a highly interesting address on his visit to the battlefields and he also told of some of his personal experiences in the aviation corps.

The speakers were introduced by Rev. Dr. E. V. Regster, pastor of the M. E. Church South.

With millions of men, women and children refugees in allied countries in sorest need of clothing of any kind the American Red Cross has set the week of March 24-31 for a nation-wide collection of used clothing, shoes and blankets for these helpless people. Every report and survey from abroad shows unmistakably that the clothing problem faced by those returning to their devastated homes is one of the most serious they have to face and it is equally clear that it is to America the suffering must turn.

The colection of cast-off clothing, which will be conducted by the thousands of Red Cross chapters scattered through the States, has been timed to the seasons when millions of Americans are changing from winter clothing to light, most of that laid aside being garments they will never use again. Through every possible agency the plight of the refugees in Northern France, Belgium, Italy, Czecho-Slovakia, Roumania, Greece, Poland, Macedonia and Albania will be brought home to the American people and a minimum of ten thousand tons of used clothing, it is expected, will be donated.

The reason the refugees must look to the outside world for succor is that even though they had raw materials they would still be helpless because of the vandalism committed upon their textile industries by the Teutons. The first step toward helping them has been taken by the War Council of the American Red Cross arranging for an emergency shipment of 13,500,000 yards of textiles, valued at over $4,500,000. But still more must be done.

"The need is great to a degree that few at home possibly realize" cabled Col. Harvey D. Gibson, American Red Cross representative in Europe. "Every garment furnished will cover a body which otherwise would lack proper clothing and each garment furnished will actually prevent suffering."

The local chapters' allotment is 6,000 pounds, and they appeal for the co-operation of every citizen in this able work.

All garments should be sent to the Red Cross Headquarters, 806 Prince street.

KILLS HIMSELF AT LEAST

Spurned Lover Shoots Widow Twice And Then Commits Suicide

Wilkes Barre, Pa., March 14.—Because Mrs. Martha Kemrite, a widow, of No. 397 East Union street, Nanticoke, refused to marry Edward Wisnewski, a boarder in her home, Wisnewski late Wednesday night fired two bullets into her body. Believing her dead he turned the weapon on himself and sent a bullet through his heart, dying almost instantly.

Wisnekski made love to Mrs. Kemrite shortly after he rented a room in the home,. On Wednesday he was told to leave and stay away, but, after drinking to intoxication, he returned and faced the woman with a threat of death unless she would accept his offer of marriage. Mrs. Kemrite refused and Wisnewski fired. It is feared she will die.

WOMAN KILLS INTRUDER

Italian, In Philadelphia, Tells Court How She Stabbed Invader

Philadelphia, March 14.—A frail Italian woman, holding her 9-month-old baby in her arms, stood before Magistrate Imber, in the Second and Christian Streets Police Station, and listened while Detective Bluebond told the Court how she had stabbed to death a man who invaded her home shortly before midnight.

She showed no emotion as the facts were related. Her chief interest was in the baby she held in her arms and the three other small children who tugged at her skirts.

The woman, Mrs. Catherine Papalle, 34 years old, was held without bail to wait the action of the coroner.

"It is the only thing I can do,'" said Magistrate Imber, "but I'll make out a transcript and hurry the papers to the District Attorney's office so that she can be released immediately on bail."

It was the opinion of the magistrate and patrolmen that the woman acted only in self-defense.

Her story, as told by Detective Bluebond, follows:

Shortly before midnight two men called at the little home at 641 Kater street, where her husband, Giuseppe Papalle, has a small shoe shop. The dead man, who is said to have been Giuseppe Carnvali, 30 years old, of Ardmore, demanded that she give him a pair of shoes.

Mrs. Papalle said she had no shoes to give away. The man then demanded money. The other man, it is said, made similar demand. In her excitement Mrs. Papelle said. "Go away, I have no money. My husband is not here," and, attempted to shut the door.

A struggle followed. The woman finally grasped the bread knife and thrust it into the man's throat as he forced her to the floor. The man fell forward as the woman, terrified by her act, ran screaming from the house. The other man disappeared in the meantime.

STRIKE CUTS OFF SUPPLIES

Buenos Aires, March 14.—The port strike, which has tied up shipping here for more than two months, has caused a loss of $200,000 in customs receipts, it was announced yesterday. The supply of many important commodities has been depleted to such an extent that the price is almost prohibitive. Newspapers experience the greatest difficulty in securing print paper.

More than 100 ships are idle in the harbor and 280,000 tons of merchandise are piled up on the docks. There appears to be no possibility of an early settlement.

Potomac Fish Company will have on sale tomorrow and balance of week, Potomac herring, Bay shad, large and medium rock, large and medium bass, Jersey trout, catfish, haddock, state cod, perch, Norfolk and Potomac oysters. Phone 198. C. H. ZIMMERMAN, Proprietor.
59-5t.

GETS STOLEN ART BACK

Treasures Carried off by Germans Being Restored.

Paris, March 14.—Art treasures taken from occupied France by the Germans and removed to Brussels are gradually being restored to the original owners.

The Temps reports that three carloads of pictures stolen from the museum at Lille have just been returned and two carloads taken from the region of Laon have been sent back.

Among the 10 carloads unloaded at Valenciennes were many rare and precious manuscripts and archives of the French Government, the belfry taken from the Guild Hall at Cambrai and furniture belonging to the Prince of Monaco, the Marquis of Havrincourt and other persons.

BELGIUM WANTS COLONIES

Would Keep Watch Over German East Africa as Mandatory

Paris, March 14.—Belgium would like to be mandatory for German East Africa, It would provide an outlet to the Indian Ocean for the Belgian Congo east of Lake Tanganyika. Belgium helped to conquer this territory and it is now being governed by an appointee of the Belgian crown.

FIRE WIPES OUT FAMILY

Father and Five Children Burned to Death in Their Home.

Franklin, Me., March 14.—Emery Colson and five of his children were burned to death yesterday in a fire which destroyed his farm buildings at East Franklin. The children ranged in age from two weeks to fourteen years.

DIED

On March 12th, at the Plymouth Hall Apartments, Baltimore, Md., MARY VIRGINIA, beloved wife of August Brill. Funeral from the residence of her sister, Mrs. Kate McDermott, 1108 King street, Alexandria, Va., Saturday, March 15th, at 9 o'clock a. m., thence to St. Mary's Catholic Church where High Mass of requiem will be said for the repose of her soul. Relatives and friends invited.

63-1t.

SWEDEN BARRED WILHELM

Former Kaiser Had Rented Castle, But Couldn't Occupy it.

Washington, March 14.—William Hohenzollern two months before the armistice was signed planned an asylum in Sweden, but was prevented from going to that country by the Swedish Government, diplomatic advices made public disclosed.

The former Kaiser's plan had reached the point, the advices said, where a deal was virtually closed for him to rent Castle Stora Sunby, situated on one of the large lakes in the center of Sweder, about four hours' run by train from Stockholm. The castle is owned by old friends, Prince and Princess Wedel.

Preparations for the reception of the former Kaiser are said to have gone so far that vast sums were spent in putting the castle in repair, and comment was critical in the vicinity because of the scarcity and cost of materials in Sweden at that time.

When the Swedish Government learned the purpose to which the castle was to be put representations were made, and William Hohenzollern changed his plans, with the result that in a few weeks he fled to another castle in Holland.

RICHMOND MINISTER HURT

Rev. Nelson P. Dame Sustains Broken Arm When Thrown From Automobile.

West Point, Va., March 14.—Rev. Nelson P. Dame, of Richmond, missioner for this district, who has been ministering during the past year to the congregation of St. John's Church, in this parish, after holding two services last Sunday attempted to go to Westmoreland in the automobile which carries the mail across the country. When not far out of West Point, the car ran into a deep mud hole, and Mr. Dame fell from his seat, breaking his arm about the wrist and sustaining serious bruises.

NO OPPOSITION

The announcement that Col. E. B. White, of Loudoun, will not be a candidate for Congress gives practical assurance that R. Walton Moore will receive the singular and unusual honor of the Democratic nomination without opposition.

The Eighth district and Alexandria in particular ought to be congratulated upon the fact that in Mr. Moore we will again be represented in Congress by a man of high character, lofty ideals and unimpeachable integrity.

In his years of public and private life in our adjoining county of Fairfax he has typified the highest ideals of citizenship and service. That his people should in these troublous times place him as our representative in the National Congress as their unanimous choice is a most fitting tribute.

BIRTH OF A NEW PARTY

A brand-new political party, to be known as the "Liberty Party" is preparing to make its debut in the next presidential campaign, according to advance agents who have interviewed members of Congress in Washington. It will seek to nominate candidates in opposition to both the Republican and Democratic nominees.

The purpose of the new political organization, it is said, will be to combat the tendency toward the centralization of power in the Federal government and to preserve the individual powers of the States.

It was intimated by several of those who were approached on the subject that the movement was originated by the "wet" organizations for the purpose of fighting prohibition. This suggestion was denied by those who acted as the new party's agents. It was admitted, however, that opponents of prohibition might find the party a welcome refuge after the nation has gone dry and that inclusion of all the supposedly liberal elements might take in the "wet" following.

While not posing as more far-seeing than others, we will say that we have been anticipating the organization of a new political party which will oppose the bone dry national prohibition movement. While the sponsors of this party may deny that it is intended to stem the prohibition movement, there is reason to believe that this will be its paramount issue.

Five years ago when the campaign for prohibition was raging in Virginia the Gazette favored local option. We believed then, and believe now, the question should be settled by each community. But a majority of the people of the state, thought otherwise, and the Mapp law was passed, which, after all, merely regulates the use of stimulants. As good democrats, we bowed to the will of the majority, and would be pleased to see the law enforced to the letter.

That a nation-wide attempt to make the nation dry would precipitate serious conditions has ever been the opinion of thoughtful people. This new party is likely to embrace many discontented souls, and thus keep in motion the present roaring of the seas and waves.

SAVAGERY OF WAR

The terms of peace to be imposed on Germany, it is understood, will include a prohibition of the use of poison gas in war and its manufacture.

As a contemporary says, "it is to be hoped and expected that the employment of this horrible weapon will be altogether outlawed in civilized warfare, if there is such a thing as civilized warfare, and that with gas the submarine will also be prohibited. We used to read with horor of the use of poisoned arrows by the savages of the South Sea Islands. And yet Germany introduced in this war a poison compared with which that of the South Sea savages is mild and civilized, and in self-defense and retaliation the Allies used the same dreadful weapon.

Wth the improvement and expansion of the air service, it may be assumed that, unless outlawed, the airplanes will in the future drop shells filled with gas upon defenseless cities, and so wipe out whole populations. It is sickening to contemplate the possible horrors of the future, unless this Peace Conference will find methods to prevent this mode of warfare altogether. It has not been many years since the use of chain shot was considered too barbarous to be tolerated.

"The Germans made an excuse for submarines drowning civilian passengers on commercial vessels, such as the Lusitania, that the submarine is too small to take large numbers of passengers aboard and therefore they had to be drowned. That would be a sufficient reason for prohibiting their use in warfare. It is to be hoped and expected that the Peace Conference, if it cannot make war impossible, will at least make it more humane and civilized."

DENIES HE SLEW WIFE

New York Doctor Says Her Death Has Left Him Penniless

New York, March 14.—Before going through a gruelling police examination, Dr. Walter K. Wilkins, aged 67, former California, said yesterday that he knew he was suspected of the murder of his wife near their Long Island country home on the night of February 27.

Dr. Wilkins repeated his original story that he and Mrs. Wilkins were attacked by three robbers as they entered their home. Mrs. Wilkins was beaten to death with a blunt instrument. Dr. Wilkins says that his wife's death was the worst thing that could have happened to him.

"Under her will, he said, "I am left practically penniless."

The will of Mrs. Wilkins disposes of an estate valued at $65,000. With the exception of a small bequest to a nephew and niece, the estate is left to the German hospital of New York and to charitable institutions.

ATTACKS HIS WIFE

Edgar Perkins Uses Knife After Family Row—May Die

Rochester, N. Y., March 14.—Charges and counter charges of marital infidelity on the part of a minister's daughter and her husband reached a tragic climax yesterday when Edagr E. Perkins picked up a butcher knife from the breakfast table, cut his wife's throat and then slashed his own.

The Perkins live at Lyons, near here. Their five young children were upstairs during the quarrel.

The children ran to the house of a neighbor for help and when they returned Perkins lay beside his wife, his throat also cut.

Perkins has a chance o f recovery, but his wife is expected to die.

Mrs. Perkins is the daughter of the Rev. Mr. Hoxie, formerly a well known Free Methodist clergyman.

AIR PASSENGER LINE

First Trip From N. Y. to Los Angeles to be Made in August

New York, March 14.—Aerial passenger service between New York and Los Angeles will be started early in August, according to an announcement at the Aeronautical Exposition here last night by Wesley A. Hill, of Phoenix, Ariz., a former army aviator and head of a recently organized aerial transportation company.

The company, Mr. Hill said, has a fleet of four 12-passenger planes, all of which will start on the inaugural trip on the same date. Stops are to be made at Kansas City, Chicago, Cleveland and other cities which have landing fields. The schedule calls for a four-day trip.

Mr. Hill added that plans are under way for the opening of an Atlantic coastwise passenger service and later a service between Los Angeles and El Paso, Texas.

THREE HUNDRED MILES AN HOUR BY AIRPLANE

A recent Paris dispatch announces the invention by a French engineer, Auguste Rateau, of a new airplane device which is said to insure a speed of from two hundred to three hundred miles an hour. This invention was being perfected as a surprise for the Germans when the fighting stopped on November 11, 1918. It is claimed that an airplane equipped with this new device will be able to travel more rapidly in high altitudes than in the denser air near the earth, whereas, without this invention the higher an airplane flies the less power its engine develops on account of the rarifying of the air; the loss of power at an altitude of 15,000 feet, for instance, being approximately 50 per cent.

This new device is said to be extremely simple. It consists of an arrangement by which the exhaust from the engine works a small turbine which compresses the air drawn into the engine at normal pressure, thus making it possible for the engine to develop full power at any altitude. And, since the air resistance to the flight of an airplane at high altitudes is much less than when flying near the earth, a plane fitted with the new device will be able, it is claimed to attain much greater speed than has heretofore been possible.

ANKLE SCREEN IN COURT

Fence Before Jury Prevents Court Attendants Catching Witness Who Faints.

New York, March 14.—The "spite fence" erected in front of the witness stand to prevent befuddlement of jurors should there be an inch or so of display of silk stockings by Mrs. Betty Inch, pretty and shapely actress, on trial for alleged extortion of $215 from William P. Herrman, caused embarrassment to court attendants hurrying to aid Mrs. Herrman, second witness for the prosecution, who had fainted in the witness chair. Inability of Mrs. Herrman to continue her testimony caused adjournment until today.

During the hearing, Mrs. Inch appealed to Eugene McGee, of her counsel, to insist that John Markey, one of Assistant District Attorney Talley's clerks, find some other object than her shapely feet to attract his attention. He spent the entire day Wednesday, she declared in gazing. When she discovered yesterday that her feet still interested him, she complained to her lawyers. The clerk was asked to change his line of vision.

Mrs. Herman testified that a woman who said she was "May Hayes," but whose voice she recognized later as that of the defendant actress, offered over the telephone on June 14, to furnish her with evidence for a divorce from her husband who, she said, with a friend, had entertained two women overnight in his apartment A trap was laid, $215 in marked money was handed over, and the defendant was arrested, witness testified.

DANZIG AWARD STIRS HUNS

Berlin, March 14.—Reports from Paris to the effect that the peace treaty will provide that Poland shall have Danzig and that a buffer state shall be formed along the Rhine, have stirred up the German press, both conservative and radical.

"It is to be hoped there is nobody in Germany who would suffer such a treaty to be signed," says the Tageblatt.

"The Lokal Anzeiger says: "We regard it as absolutely certain that these demands will be rejected if they are made."

The newspaper says that if Danzig were given to the Poles they would get little enjoyment from it.

"This stolen property," it declares, "would burn in their hands." It also says that Germany would be justified in refusing to sign the treaty if it contained these conditions, setting forth President Wilsons program as justification for the refusal.

Stop Coughing!

The simplest and best way to stop coughing is to take

FOLEY'S HONEY AND TAR

In it, you get the curative influence of the pine tar and other healing ingredients, together with the mollifying laxative effect of the honey. It puts a soothing coating on the inflamed tickling throat, allays bronchial irritation, raises phlegm easily, stops hard wearing coughs and nervous hacking.

W. S. Bailey, Lancaster, Ky., writes:—"My wife contracted a severe cold, which developed into a bronchial trouble, and she coughed almost continually. One-half bottle of Foley's Honey and Tar slacked up her cough and she rested much better at night. She continued its use until it effected a cure."

MUST DELIVER AIRPLANES

Paris, March 14.—Germany must deliver all airplanes to the Allies and must prohibit the construction of other airplanes until the conclusion of peace, the Supreme War Council decided yesterday in adopting the aerial terms to be imposed on Germany in the preliminary peace. The terms do not decide the future fate of the airplanes, which may either be destroyed or divided among the Allies.

The British and American delegates brought up the question of a distinction between commercial aerial navigation, which will be authorized for Germany after conclusion of peace under certain guarantees, and military aerial navigation, which will be prohibited. The council decided to send an aeronautic commission to Germany to investigate the question of commercial aerial navigation. Deputy Aubigny, of the French Chamber, will be chairman.

All forms of military airplanes are barred to Germany, the only exception being the temporary use util October 1 of 100 hydroairplanes and 1,000 men in gathering mines in the North Sea.

SLEEPING SICKNESS KILLS

Child Passes Away After Being in Coma-Like State Ten Days

Punxsutawney, Pa., March 14.—One death has resulted here from "sleeping sickness," following influenza, and another victim of the strange malady is recovering as the result of an operation, Mary Junko, 11 years old, died yesterday, after sleeping for 10 days. Everything known to medical science was utilized in an effort to arouse the child, but failed. She was a victim of influenza two months ago, but was thought to have fully recovered from its effects when she went into her long stupor.

Mrs. John Wilde, aged 56, of Eleanora, was near death when she was awakened three months ago and was ill for some time. Upon recovering she rapidly regained her normal health, only to become drowsy and fall asleep. One physician after another was called, but efforts to arouse her were unavailing. Finally a consultation was held by the attending physicians and a quart, of blood was drawn from one of her veins. Soon afterward, when shaken violently by the physicians, she opened her eyes, and now is believed to be recovering.

New York, March 14.—Frank W. Martin, of the War Steamship Company, is dead here today, following a five-day illness which has been diagnosed "sleeping sickness." It is the first death from the disease in this city.

"The symptoms of the disease are very much the same as those of spring fever, said Health Commissioner Copeland today. "But just not jump to the conclusion that he has contracted sleeping sickness."

NEWS OF THE DAY.

Enrico Caruso the famous tenor has paid his income tax for the first quarter, a matter of $38,483.34, which means a total of $153,933.70 for the year. Being a married man he was granted $2,000 exemption although he really made a claim verbally for $4,000 because he has been married twice in the last few months. In each case the bride has been the same, however.

The Vossiche Zeitung of Berne, declares that action by the national assembly threatens Berlins continuance as the German capital. According to the newspaper, the old constitution referring to "Berlin" has been changed to read "capital of the empire." Unanimous adoption of this change, the newspaper says, indicated the intention of the delegates to abandon Berlin as capital of the new republic.

The Bolsheviki have created a new cabinet "to concentrate for a world-wide revolution," according to a dispatch from Moscow, M. Moor, a native of Switzerland, is said to have been named as the first minister. M. Litvinoff, deported former Bolshevist "Minister to Great Britain," late last night was revealed as the chief "wire puller" behind the meeting of British Reds planned here for Sunday to form a communist league in England preliminary to the creation of Soviet Republics in England, America and France.

DIAMONDS IN JAPAN

They Shine in Rings, Combs and Brooches and in Clasps of Kimono Sleeves

Milady of Japan is taking to diamonds with a vengeance these latter days. Diamond rings, diamond combs, diamond brooches and diamond old (a sort of sash worn with the kimono) clasps are now considered as necessary if women are to appear in high society.

OFFICE OF CLERK OF GAS

City Hall, March 13, 1919.

SEALED PROPOSALS will be received at this office addressed to C. W. Wattles, Chairman Committee on Light until 8 p. m. Monday, March 24, 1919, for furnishing the Gas Works with five thousand tons, more or less of gas coal (2,240 pounds to the ton) to be delivered on trestle at Gas Works, Alexandria, Virginia, during the fiscal year commencing June 1st, 1919, and ending May 31, 1920, orders to be accepted by the successful bidders any date after awarding contract, so that coal will arrive at works on or before June 1, 1919.

The coal must be Monogah, Tyconnol, Youghioheny, Montana, Westmoreland, Fairmont, Lincoln, or other gas coal of equal or superior yield and candle power and must be 3-4, screened. Bidders can give their figures on all of the mines and are required to give candle power yield and analysis per ton.

In routing coal bidder must ship by Southern Railway provided, however, that rates are not in excess of competing lines rendering similar service

The committee reserves the right to reject any and all bids.

Terms:—Cash on 15 day of each month following the delivery of coal.

By order of committee on light.

J. B. WALLER,
Clerk of Gas.

62-3t

TO FIGHT LEAGUE PLAN

Washington, March 14.—Preliminary plans for the formation of a national nonpartisan organization designed to keep the American people better informed as to events at the Peace Conference and to oppose acceptance of the constitution of the league of nations as now drawn were made at a conference yesterday between Senators Reed, of Missouri, Democrat, and Borah, of Idaho, and Poindexter, of Washington, Republican, and George Wharton Pepper, a lawyer of Philadelphia.

After the conference it was announced that Henry Watterson, former publisher of the Louisville Courier-Journal, would be president of the organizatin, with Mr. Pepper as directing supervisor. It was said that many Senators who have been active in opposition to approval of the league constitution would support the organization.

Senator Reed announced that a statement outlining the purposes of the organization would be issued within a few days. One purpose, it was explained, would be the co-ordination of various local bodies that have been formed over the country in opposition to the league. Present plans call for establishment of a speakers' bureau and the conducting of an intensive campaign of publicity throughout the country. Senators said the organization would be supported by voluntary contributions and that headquarters probably would be established at New York.

Suggestions were made at the conference today that representatives be sent to Paris while the peace negotiations are in progress, but no agreement was reached.

We Have Just Received Our Spring Line of
MEN'S SUITS

CLOTHES FOR THE CULTURED

Weaves and fabrics that are la mode and de rigeur. Nobby and natty suits made up by tailored hands of skill. Imported and domestic suitings in satisfying variety. The ready made suit has won its way into the regard of the discriminating dresser, because the art of making ready made clothes has developed into a guarantee of a perfect fit for the imperfect form.
